CONTENTS

The 1979 Cardinal is dedicated to the people who made Plattsburgh in 1978-79, and who gave us this special space in time. So to the frisbee players of the College Center Courtyard, to the social society found in the library, to the downtown crew, to Mrs. P., to the Thursday night pub regulars, and to you Plattsburgh State, this volume is dedicated. To you we attribute the diversity and depth of our University.

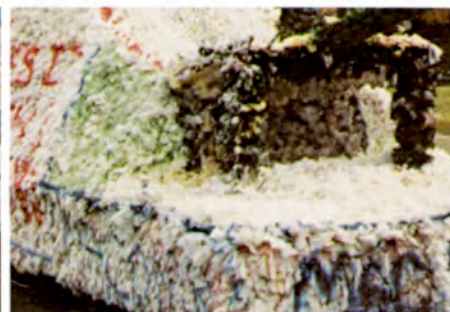

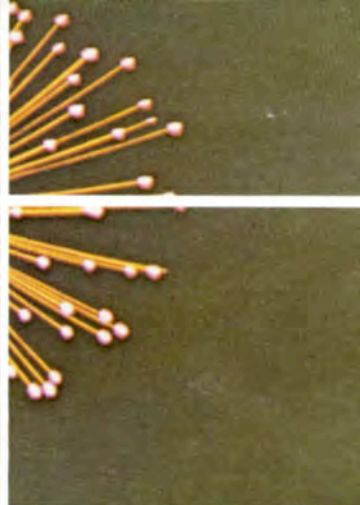

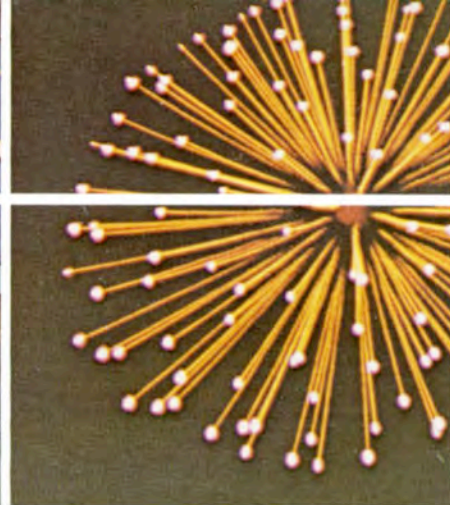

AROUND CAMPUS

College life

is the grand make-believer
the bitter reality
the party that never ends
the race that is always won.

Is it Alice in Wonderland standing on her head
talking about Pogo, about calculus,
With Hail Alma Mater in the background and the feel of
peanut butter sticky on her thumbs
and a beer glass standing on her floor.

It is a retreat which the world can never touch.
A place of peace and silence where the moment
of international crisis is the point after touchdown.
The most unforgettable character is—yourself.

The religion is faith
The creed is hope
The motto is "next week we study".

Never before
not after
are you so close to reality and yet
so vitally withdrawn from it.

The sorrows are deep deathly sloughs of despair
and dejection,
The loneliness comes creeping and overwhelms you.
And there is no one and nothing to fill

The racking,
the void,

And then you have a beer.

And there is a joy
and ecstasy, the love

That spoils and pours down the avenues of your life,
even compromise and depart
reaching even counselors and department heads.

The rustling of leaves
And the string of cars glistening on a rainy night that
fill you with peace and love

That no cathedral or poem can ever give.

They simply are these four years
And we never will them
We sometimes appreciate them,
But we spend the rest of our lives
reliving them.

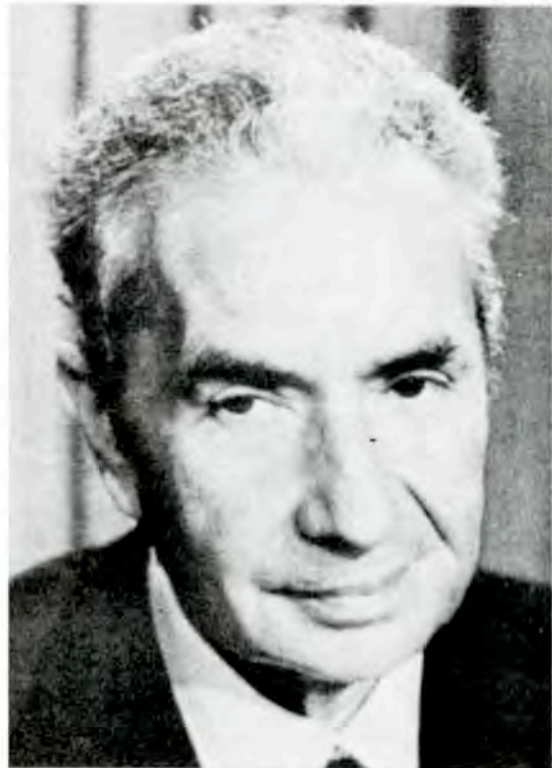

Cardinal

In late 1978, Camp David was the scene of one of the most remarkable meetings of world leaders. President Carter, Egyptian President Anwar Sadat and Israeli Premier Menachen Begin met for several days at Camp David. A major breakthrough was conceived when, after thirteen days of meetings, the three world leaders emerged from privacy and announced that two documents would be signed in order to gain peace in the Middle East.

The first document entitled "A Framework for Peace in the Middle East", talked about the solutions for Israel, Jordan, and Palestine to finally obtain peace.

The second document entitled "A Framework for the Conclusion of a Peace Treaty Between Egypt and Israel", spoke of exactly what the title says, peace between Egypt and Israel.

The major meeting took place in the East room of the White House. The three leaders spoke in turn. President Carter announced the broad outlines of the two documents, initially stating his hopes of their fulfillment. President Sadat quietly praised Carter for getting the meetings going. Finally Begin addressed the audience with an attention getting speech. He too, stated he was thankful to President Carter. Begin then addressed Sadat and talked of their friendship and how "everything belonged in the past." Begin then rose to embrace Carter and in a very emotional moment for many, Begin walked to Sadat and they embraced twice. This seemed to be the sign that told peace was in the making.

In 1978, more violence occurred when Aldo Moro, an eminent statesman from Italy, was kidnapped by Red Brigade gunmen. After fifty-four days of his capture, Aldo Moro was murdered.

Yearbook

It seems like the toga phase is wearing away as do all phases. The movie "National Lampoon's Animal House", brought about the creation of toga parties. College campuses from New York to California became filled with hundreds of enjoyable toga parties. A question that was frequently asked was, "What really is a toga party?" It was described as a bed sheet that was wrapped around oneself, in an attempt to leave as much bare skin uncovered as possible without being naked.

The spirit of "Animal House" is presently being kept alive by the television series "Delta House." It contains the basic ideas from the original movie, and stars many of the original characters. It is questionable as to how long the series will last, but it most likely will continue until a new crazy and farout phase comes along.

During the late summer and early fall, hours upon hours of television coverage came live from Rome. Pope Paul VI died as did his successor, 34 days after he became Pope John Paul I. Within a short two months, the cardinals of the Catholic Church were confined to the Sistine Chapel twice, both times to elect a new Pope.

The cardinals elected a pope, who for the first time in 455 years, was not Italian. Karol Wojtyla, a native of Poland, is now Pope John Paul II.

According to many, the papacy seems to be headed for a new era of openness. The new pope seems quite concerned with world justice and peace, unifying the Catholic Church with other Christian churches and greater authority for the bishops of the church.

Pope John Paul I gave Pope John Paul II a head start with changing the papacy. The smiling pope, as John Paul I has been remembered, showed the world a beautiful warmth and humor. The "Smiling Pope" also changed some of the rituals of the popes of the past; for example, when he refused to accept the traditional tiara it marked the "first" for that occasion.

Pope John Paul II has continued to make changes in the usual manner of the papacy. Many people have noted his exuberant personality. When he mingles with people anywhere, and fluently speaks in the native tongue of the country he is in, John Paul II continues to show this personality.

Pope John Paul II seems to have a strong organizational system. He has reappointed many top officials in Rome, and has voiced his disapproval on the matters of divorce and abortion.

In the year of 1979, Pope John Paul II will face many trials and tribulations as similar to those in the past. The new Pope has thus far shown to have much confidence in himself, and relays this message to the papacy and the people. He once said to a cheering crowd, "As you can see, this is no longer a church of silence. The church speaks. The Pope speaks."

Louise Brown, a blond haired, blue-eyed little girl, was born at 11:47 p.m. weighing five pounds, ten ounces. This sounds like any typical birth announcement, but it wasn't. Louise was the first child born in history, to be conceived outside the mother's womb.

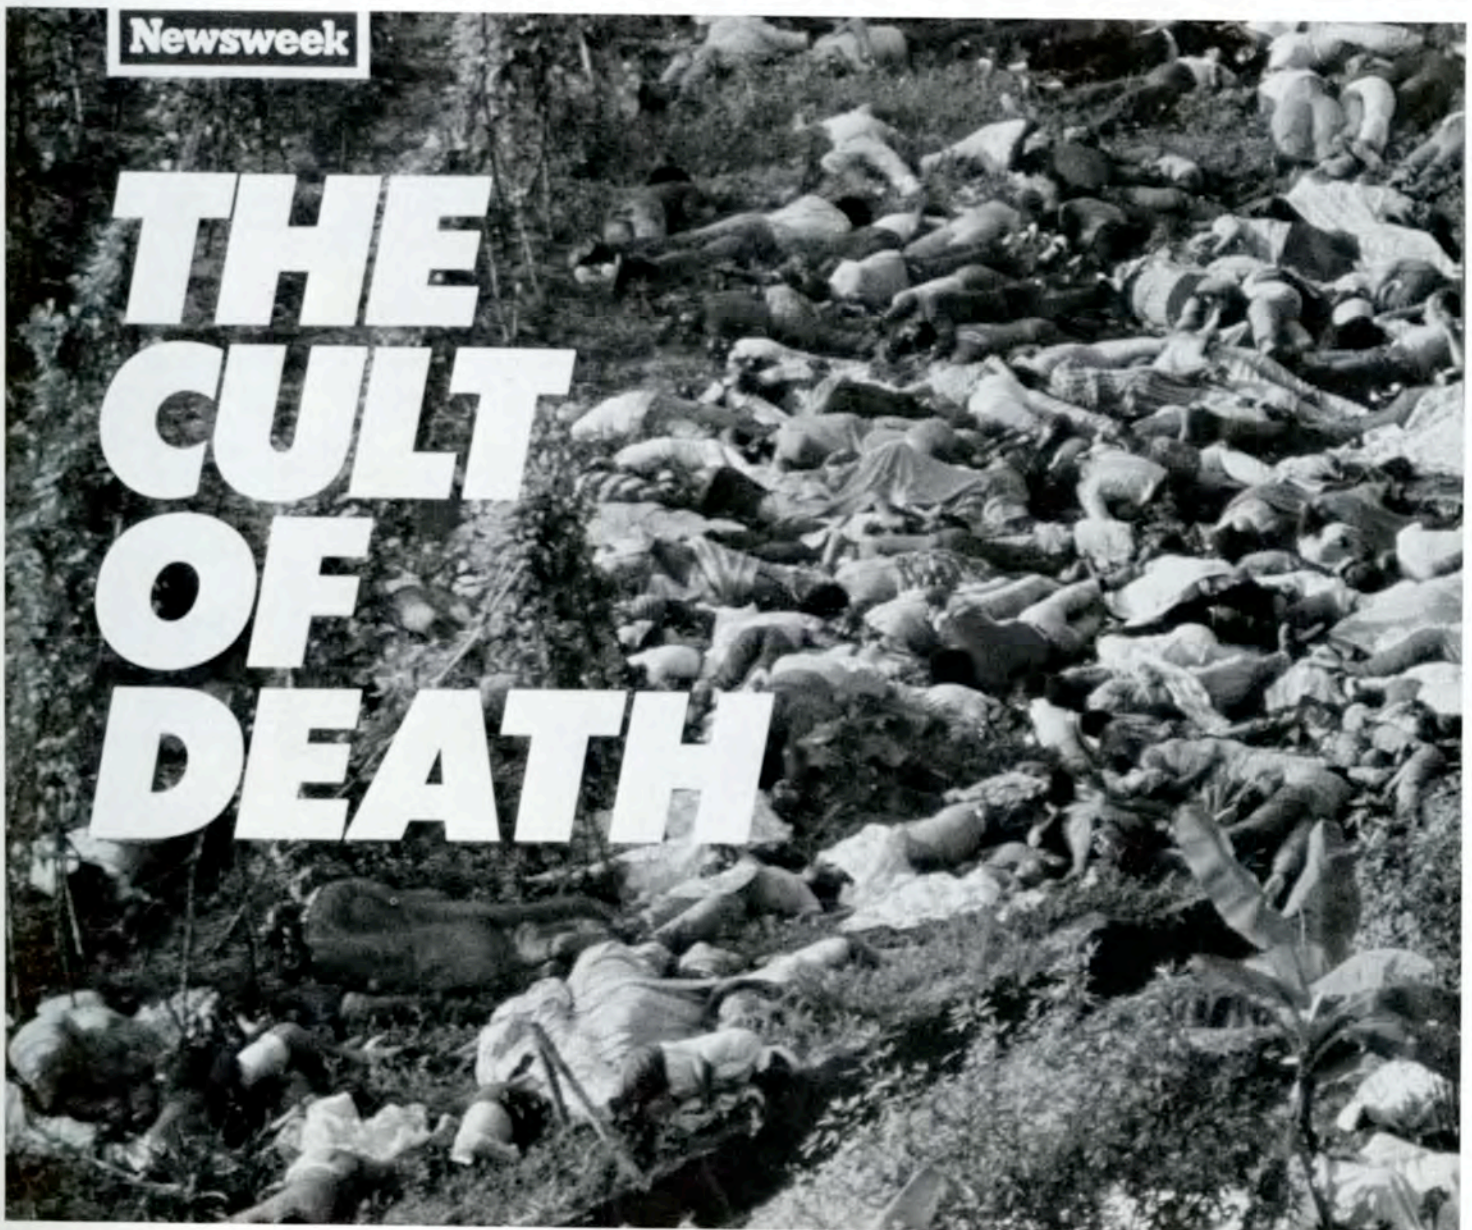

For about twelve years, Dr. Patrick Steptoe and his medical assistant Robert Edwards had been experimenting ways to help women who for various reasons could not conceive children. In this new technique, the doctor examines his patient for a period of time until he finds a mature egg and removes it. This egg is then placed in a culture dish which contains nutrients and sperm. After the egg is fertilized, it is placed in another solution where cell division can take place. This process takes approximately two and one half days, thus, the egg is ready to be placed in the uterus, where it attaches itself to the uterine lining.

One question most frequently asked about this process was; "Would there be any mental or physical defects?" Thus far, Louise Brown is a perfectly normal child, with no extraordinary problems. Perhaps the biggest worry she may have, is the fact that she most likely will be watched for the rest of her life, and always referred to as the test tube baby.

Cardinal Yearbook

Jonestown, situated in the jungles of Guyana on the northern coast of South America, was the scene for an act of self-destruction for some 900 members of the California based People's Temple. The followers of the Rev. Jim Jones, a once respected Indiana-born humanitarian, first ambushed a party of visiting Americans, killing California Congressman Les Ryan, three newsmen and one defector from their colony. Then, adults and older children picked up paper cups and sipped a concoction of potassium cyanide and potassium chloride. Parents and nurses used syringes to squirt the concoction onto the tongues of babies. Such an act demonstrates the way in which a charismatic leader could bind the minds of his followers with a devilish blend of professed altruism and psychological tyranny.

Cult members started as seekers after meaning, direction, comfort, and love. The People's Temple had filled their lives with purpose. The gravest threat to such a group is for someone to try to take members out of the 'family'. Perhaps Les Ryan's mission to Guyana may have been such a threat, the spark that triggered the tragedy.

Cardinal

Even if the average baseball fan is not a Yankee fan, he must admit that the succession of events that led to a second consecutive championship for the Yankees was quite incredible.

Yankee fans remember July 1978, when their 1977 World Series Champs were fourteen games off the lead. The change in one year had been astonishing.

The team seemed to be wracked with many injuries. Two of their million dollar pitchers were out for the season, Messersmith and Gullett. Mid-season, Billy Martin was fired and replaced by Bob Lemon. At that time the Yankees were ten games back.

Then the tremendous climb came. The season came down to a one game divisional playoff, which the Yankees won. The Yanks finished off Kansas City in a repeat performance of the previous year's playoffs.

The World Series went six games. Los Angeles won the first two games 11-5 and 4-3 and Yankee fans were shivering. The Yankees then won four consecutive games, 5-1, 4-3, 12-2, and 7-2. Yankee fans were again content. Their team owned the title of World Champs again.

In the end in the Yankee's million dollar lineup, it was their nickel-and-dime hitters who did it. And now everybody knows who Bucky is!

One for the Book

Never ones to do things the easy way when difficult or dramatic means are available, the New York Yankees completed their season of miracle comebacks with a record-setting World Series victory over the Los Angeles Dodgers. The Yankees became the first team to stake their opponents to a two-game lead and then sweep four straight games.

Yearbook

Deaths

Dan Dailey, 62, the lanky loose-jointed movie hooper.

Jonio Kenyatta, 80, flamboyant father of an independent, stable Kenya.

Edgar Bergen, 75, created Charlie McCarthy.

Golda Meir, 80, Guided Israel for five years.

Will Geer, 76, actor from "Tobacco Road" to "The Waltons."

Norman Rockwell, 84, sentimentalist in oil.

Karl Wallenda, 73, king of the high wire for 57 years . . . suddenly blown off of high wire, to death.

Lyman Bostock, 27, the star Angel slugger was shot dead.

John D. Rockefeller, 72, a man of good will.

Anastas Mikoyan, 82, durable Soviet official.

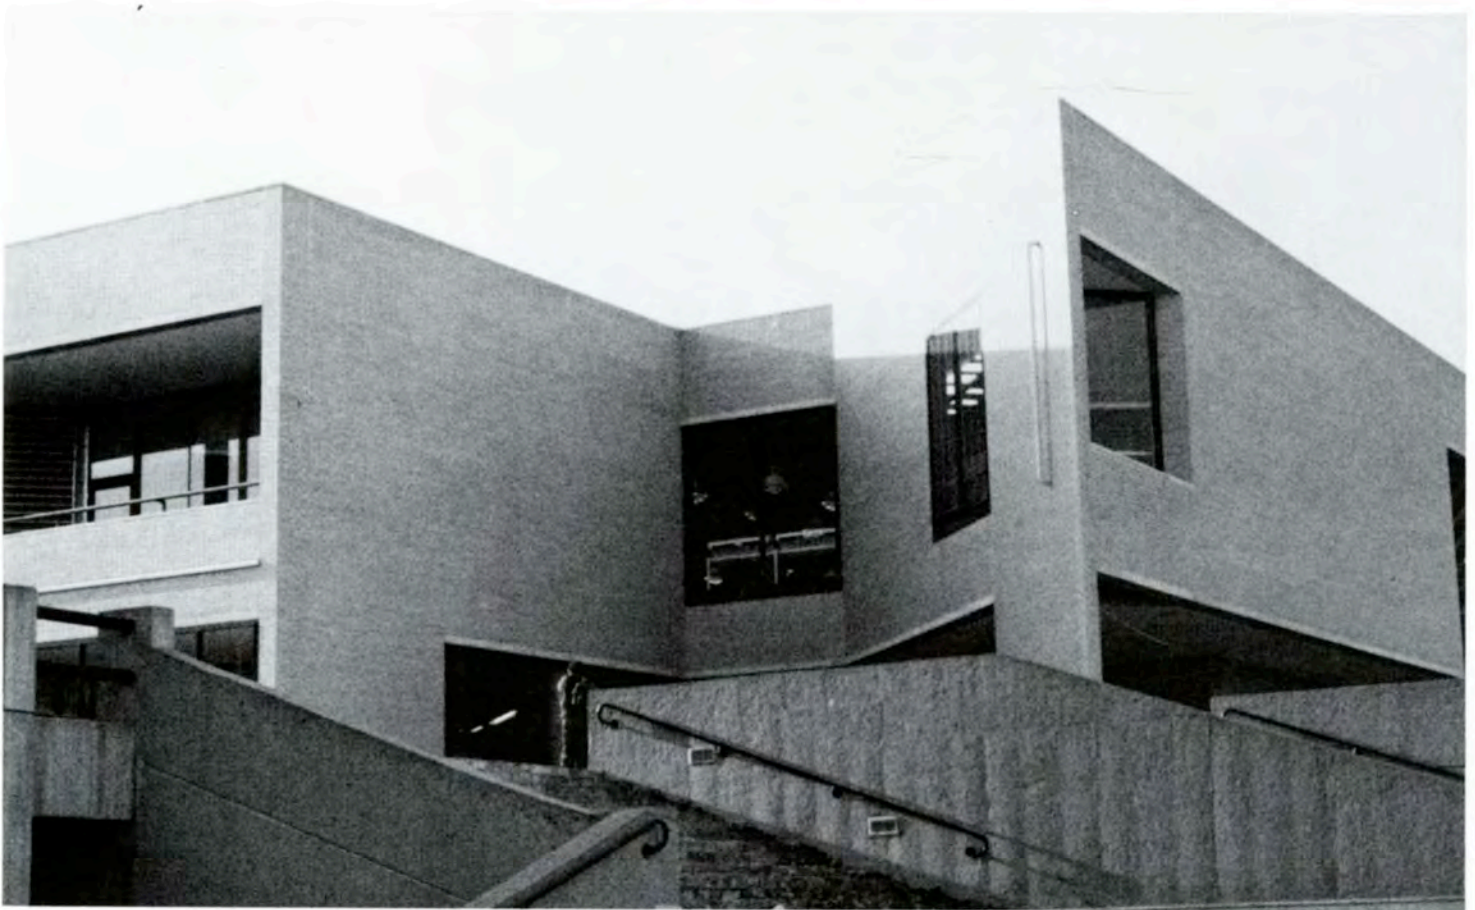

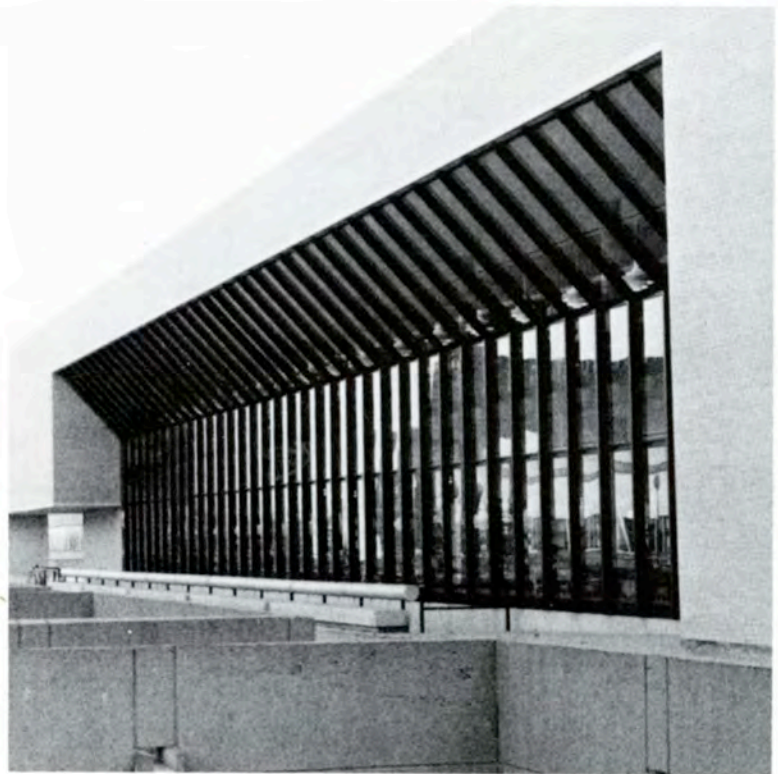

Margaret Mead, 76, Anthropologist.

Charles Boyer, 78, Movie actor.

FEINBERG LIBRARY

Feinberg Library is the College at Plattsburgh's newest building. Occupied in the summer of 1977, this spacious facility contains more than one-quarter million volumes, subscribes to 2,300 periodicals and has extensive collections of microforms, phonorecords and government documents.

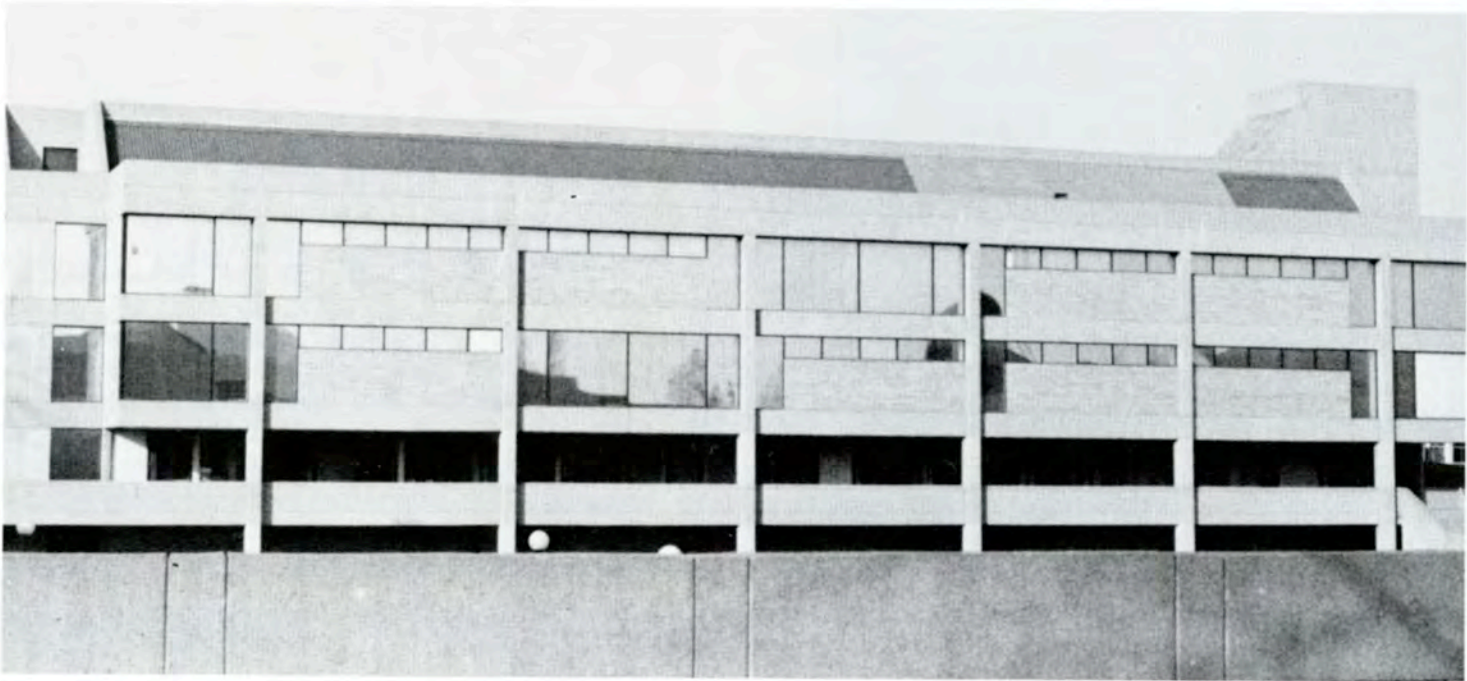

HAWKINS HALL

Hawkins Hall, Plattsburgh's oldest building, was completed in 1932. It replaced the original campus facility built in 1890 and destroyed by fire in 1929. Hawkins houses the main campus auditorium, general purpose classrooms, faculty offices, facilities for nursing instruction, and instructional areas for the preparation of elementary and secondary school teachers.

BEAUMONT HALL

Beaumont Hall provides several laboratories for biology, chemistry, and for faculty and student research. In addition, it provides a major suite for behavioral psychology, including a dozen research laboratories and small animal storage facilities, and workshop areas for both behavioral psychology and members of the faculty.

HUDSON HALL

Hudson Hall contains a 176-seat lecture room, a planetarium for astronomy classes that seats 65, a museum for exhibits, a "student commons" room for study, and administrative offices. It also houses science laboratories, computing rooms, a vivarium for live animals, and a dark room. Attached to the building is a greenhouse, and on the roof is an observatory deck.

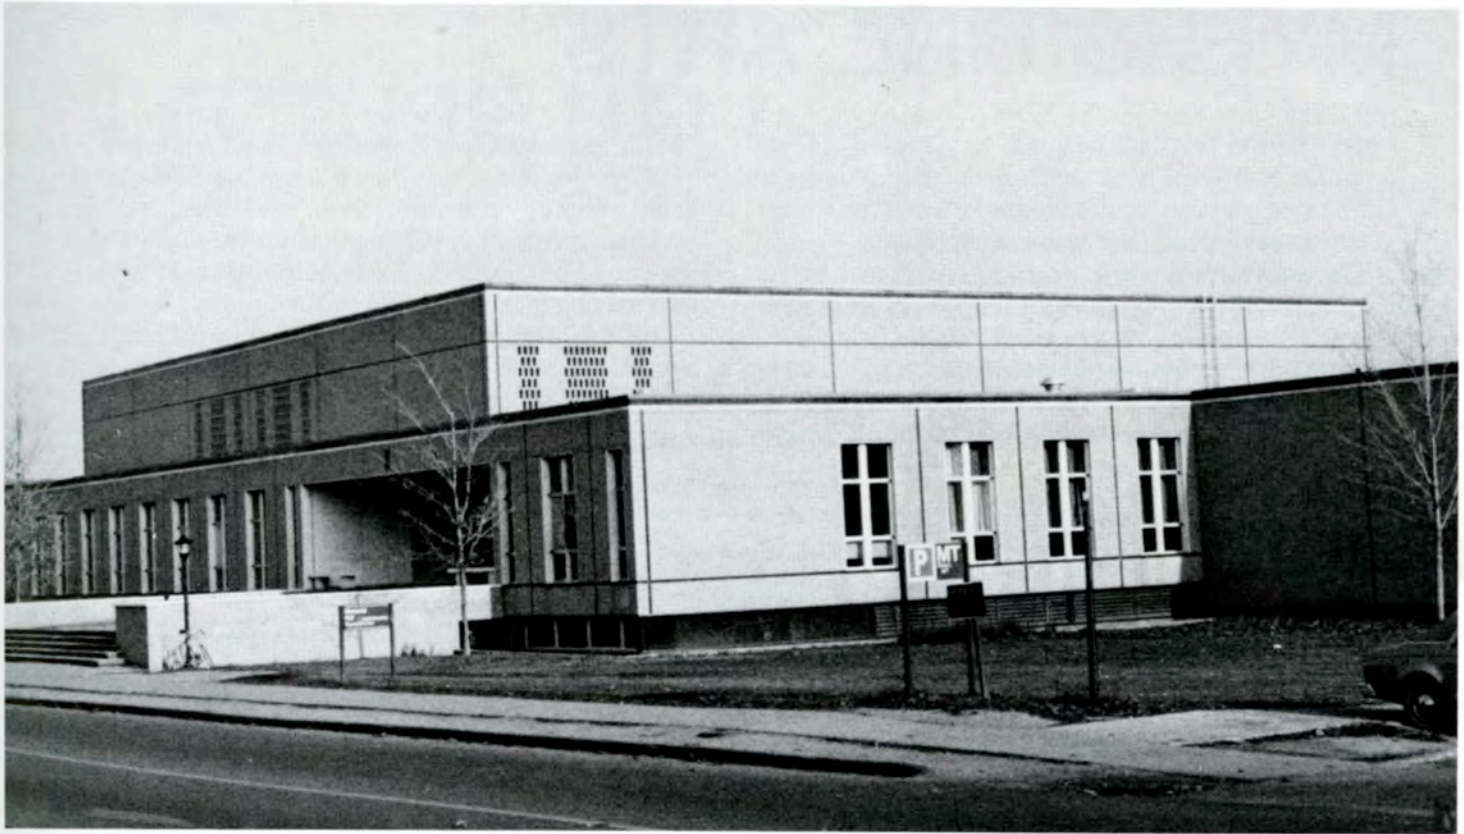

KEHOE “POWER TOWER”

The 10-story Kehoe Administration Building accommodates the College administrative offices. Kehoe's lower floors are occupied by student-related services and the upper floors by business and general administrative functions. The Offices of the President and Vice-Presidents for Academic Affairs, Business Affairs, and Student Affairs are located in Kehoe.

MEMORIAL HALL

Memorial Hall contains a six-lane swimming pool, a gymnasium that seats 1,800, four squash courts, an athletic training room, a multipurpose area for instructional use in wrestling and tumbling, a dance studio, four bowling alleys, three regular classrooms, and a social recreation lounge for the use of the entire student body. The building is headquarters for faculty in the Division of Health, Physical Education and Recreation.

MYERS FINE ARTS

The Myers Building houses the Theatre, Music and Art Departments and provides complete laboratory, studio and classroom facilities for the instructional programs in these disciplines.

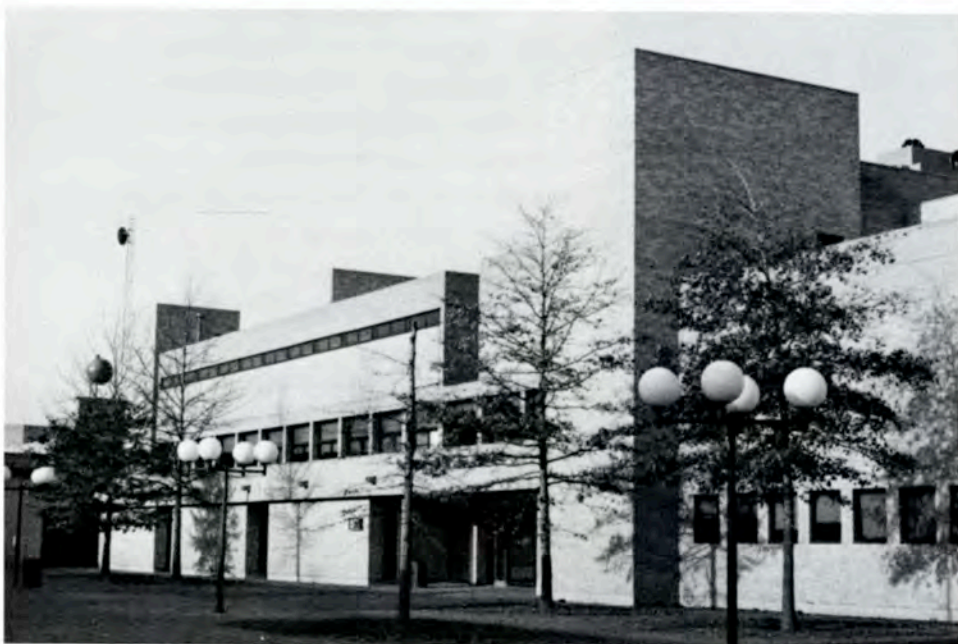

Theatre facilities include a 400-seat theatre with a flexible thrust or proscenium opening stage, a laboratory theatre, stage craft studio, dressing rooms, work-rooms and classrooms.

Art facilities include eight instructional studios, classrooms, and art gallery and workroom, faculty

studios and equipment storage rooms.

Music facilities include an instrument rehearsal room, choral rehearsal room, ensemble and individual practice rooms, faculty studios, piano rooms, classrooms, instrument storage rooms and related areas.

The building also includes a student lounge, a periodical room, seminar rooms, conference rooms, and faculty office spaces.

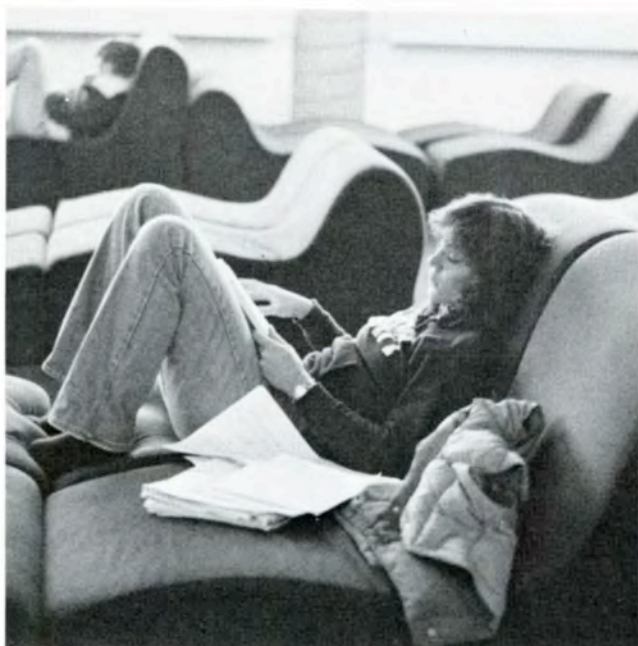

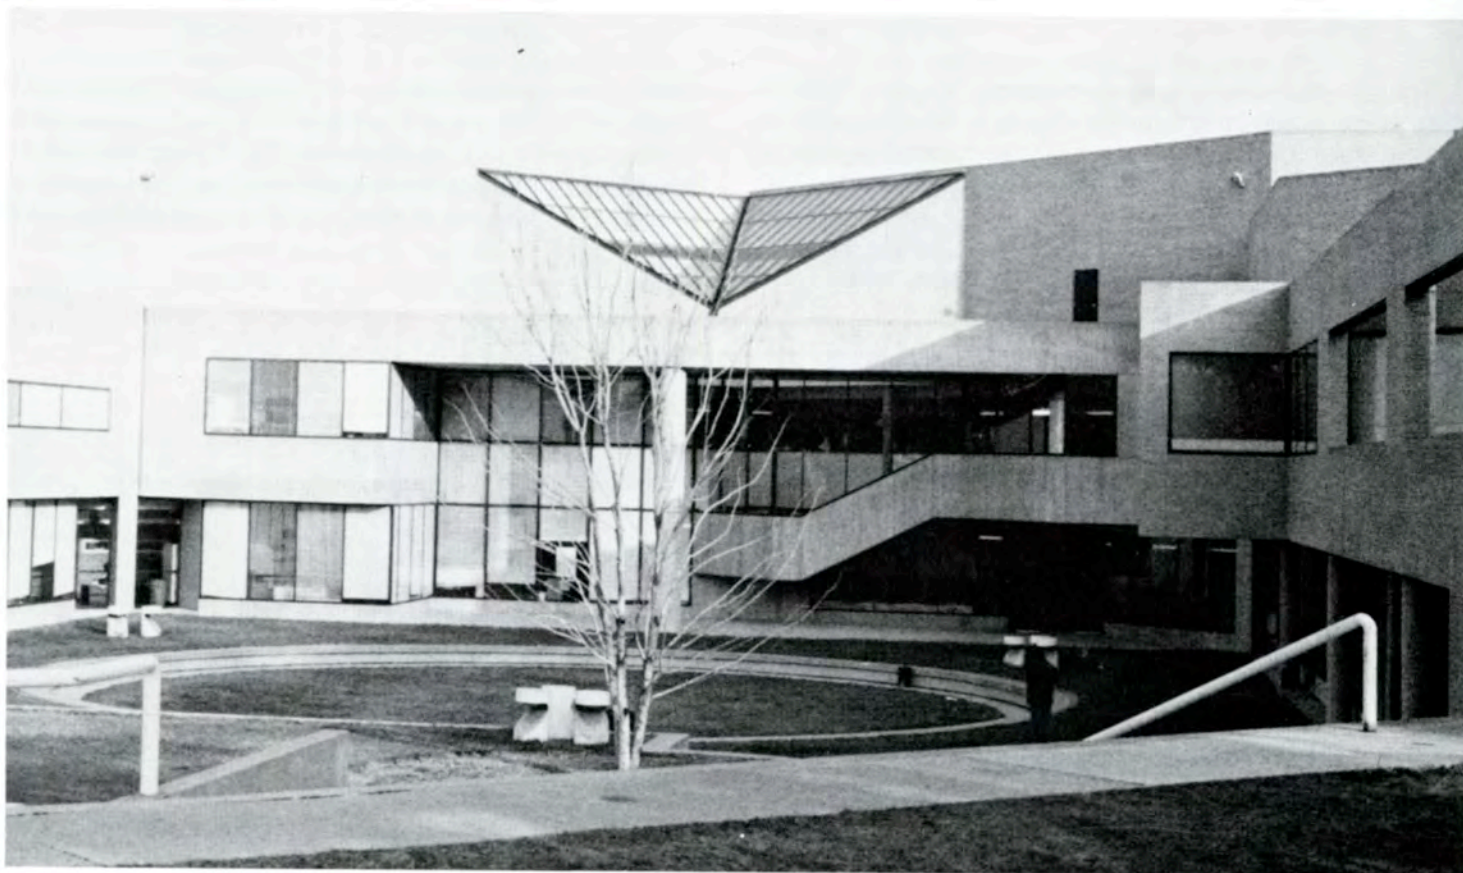

YOKUM COMMUNICATIONS LECTURE HALL

Yokum Hall, used by all disciplines, has nine lecture halls of varying capacity which, in stepped-floor lecture rooms, permit multiple visual material projection from a central rear screen projection area. The facility is also the center for production and distribution of closed-circuit television, and houses WCFE-TV, the public service broadcasting station serving northeastern New York

State. A two-level structure, the lower level houses audio-visual aids, television studios, control and production areas, radio broadcast studio and control rooms, and instructional graphic arts production areas. The upper level provides access to lecture halls and student lounge areas.

COLLEGE CENTER

SNACK BAR/ POINT

The College Center accommodates a majority of social and cultural activities of students and faculty in an informal environment. It houses various meeting rooms, and offices. Other activity spaces include a billiards room, a formal lounge, Student Association offices, and office spaces for the student newspaper, yearbook, and other activities.

ON-CAMPUS

LIVING

OFF CAMPUS LIVING

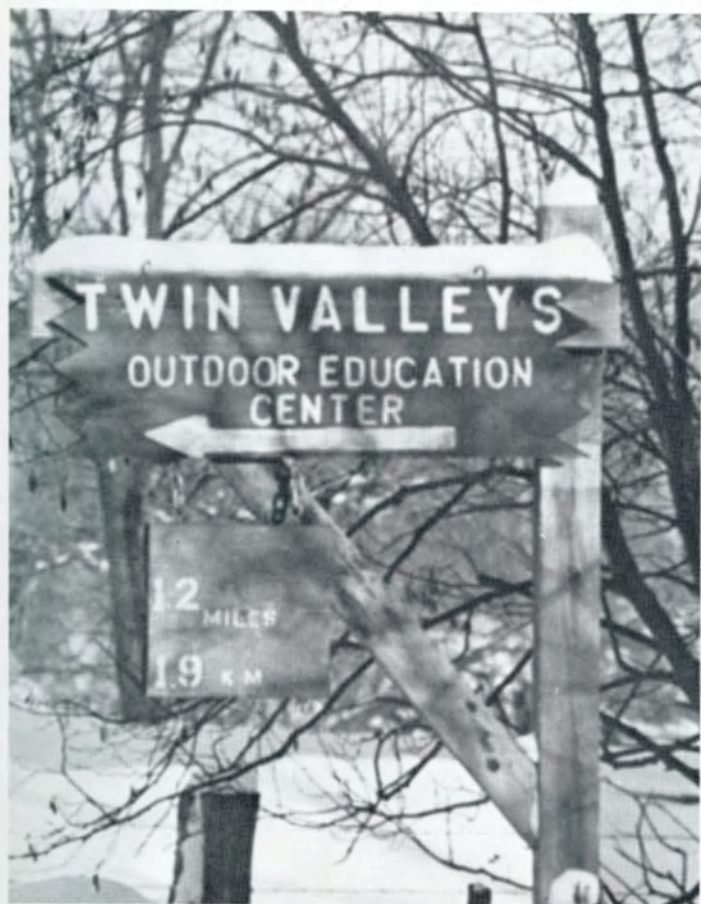

TWIN VALLEYS

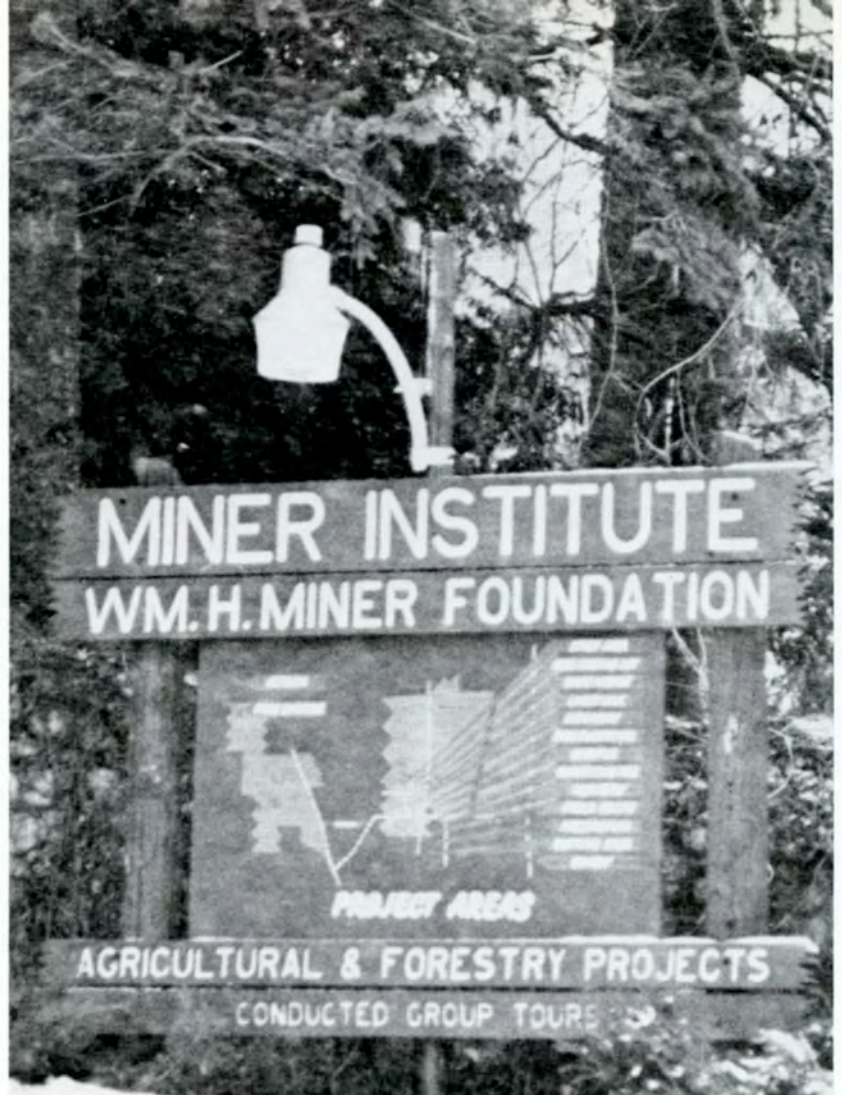

The Outdoor Education Center at Twin Valleys, 38 miles south of the main campus near Elizabethtown, New York, is a 700-acre tract of Adirondack woodlands with brooks, meadows, and a three-acre pond. Forestry and outdoor recreation experts who have inspected this site describe it as one of the finest outdoor education centers in the East. The site is used throughout the year for such activities as tobogganing, snowshoeing and hiking. Twin Valleys is also used for a number of student-faculty work conferences and for activities organized by student clubs.

MINER CENTER

Miner Center is a satellite campus located 15 miles north of Plattsburgh on the spacious estate of William H. Miner Agricultural Research Institute. The campus is equipped to house 50 students and staff. It is the site of Man and Environment, a 15-credit, one-semester program in Environmental Science. The program is funded by the College and the Miner Institute.

EXHIBITS

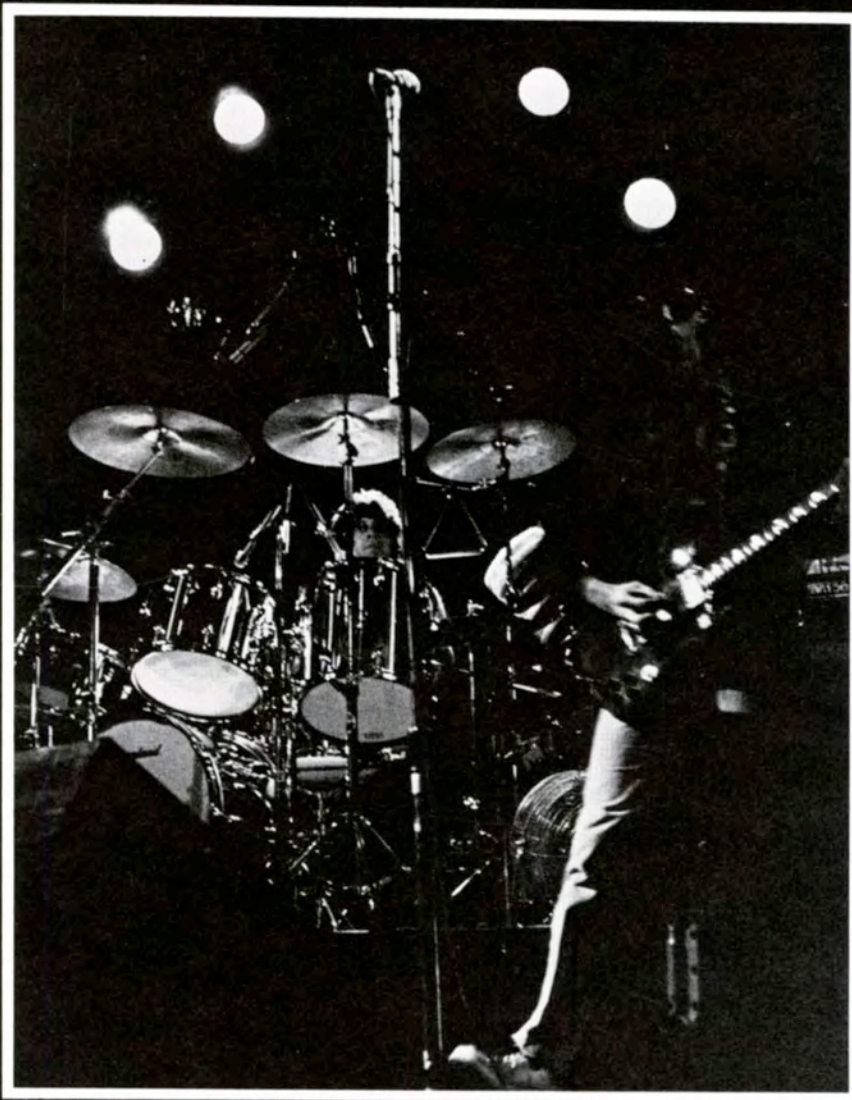

The Concert Committee would like to dedicate this section to our former member, Peg Boren.

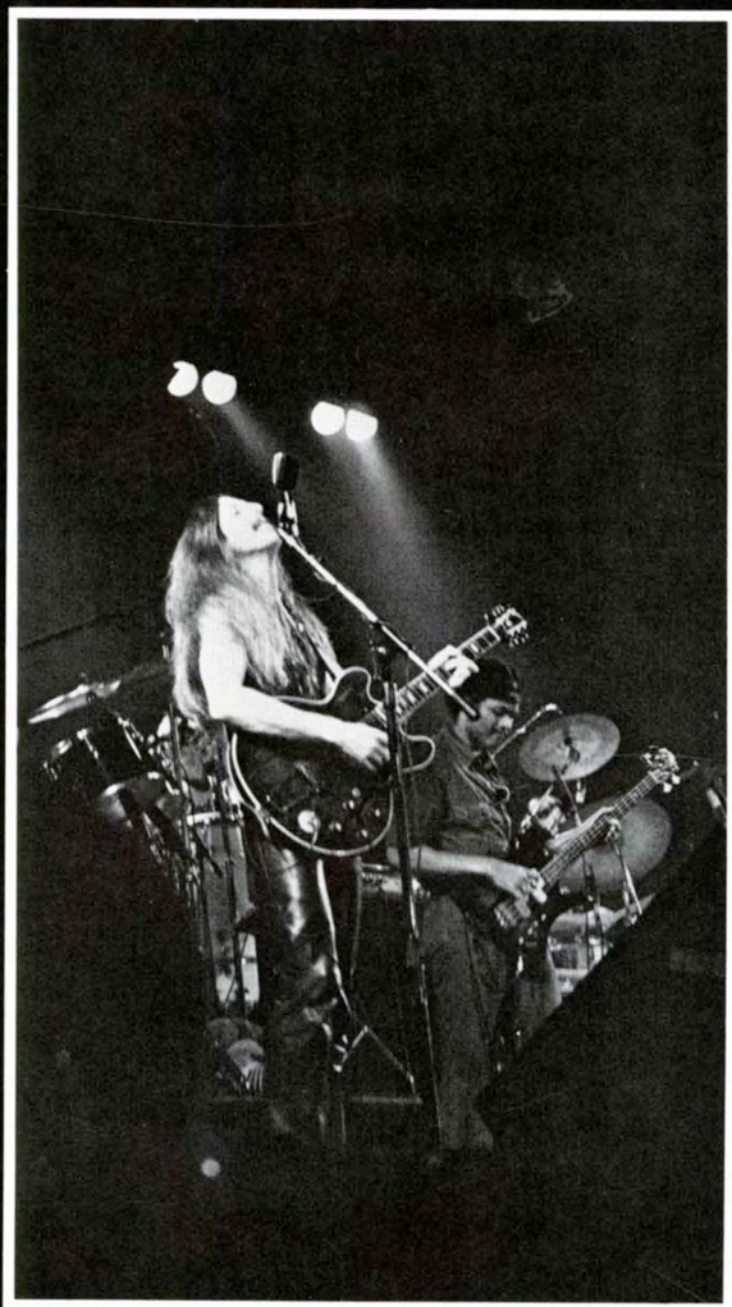

To those of you who knew Peg well, she was a dear friend. To others, she was a smiling face. Peg was a very dedicated member of Concert Committee. Her helpfulness, kindness, and sense of humor are irreplaceable. She will be fondly remembered by all of us.

Weekends

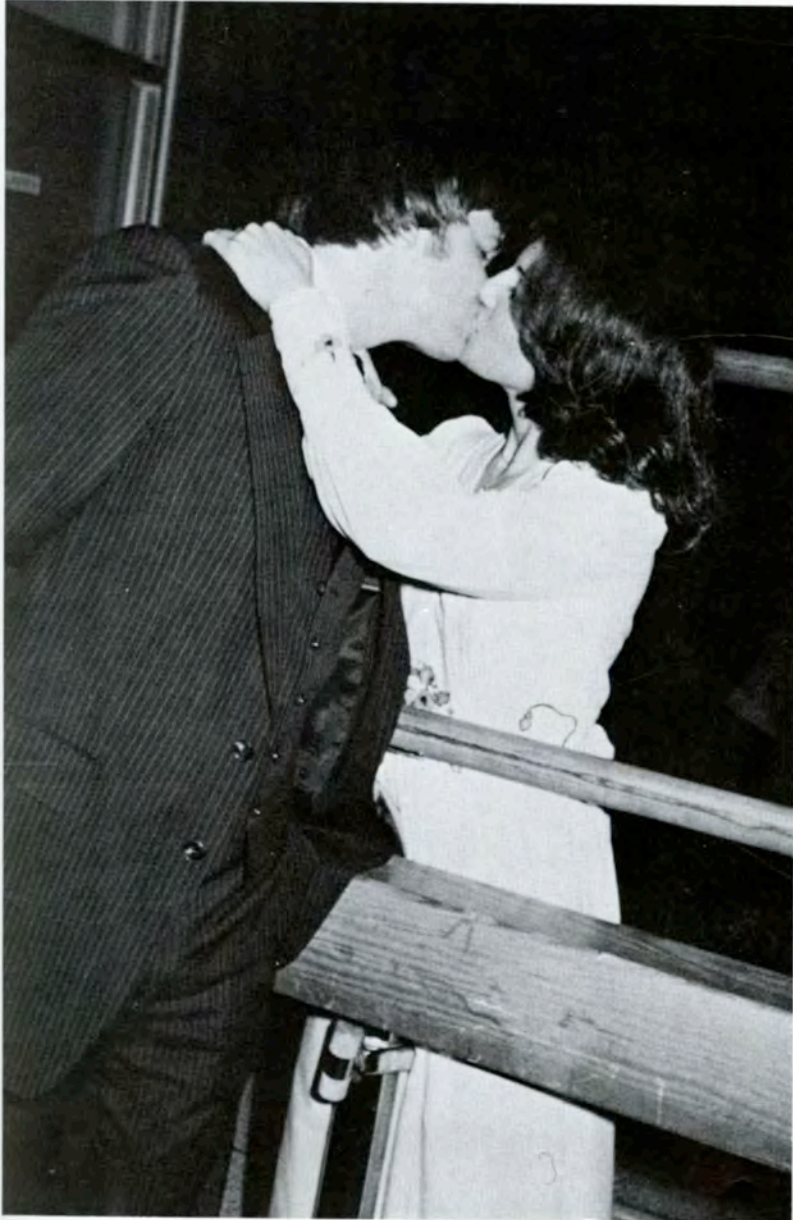

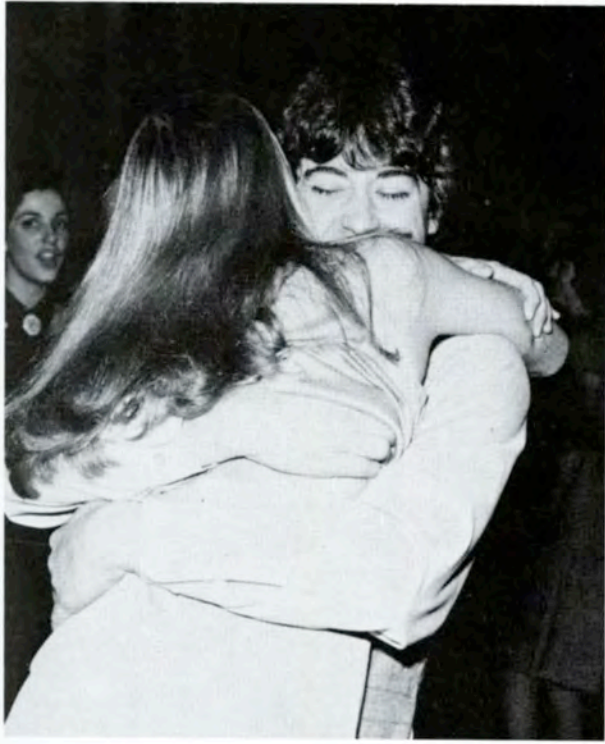

WINTER WEEKEND

SEMI FORMAL

SPRING WEEKEND 1978

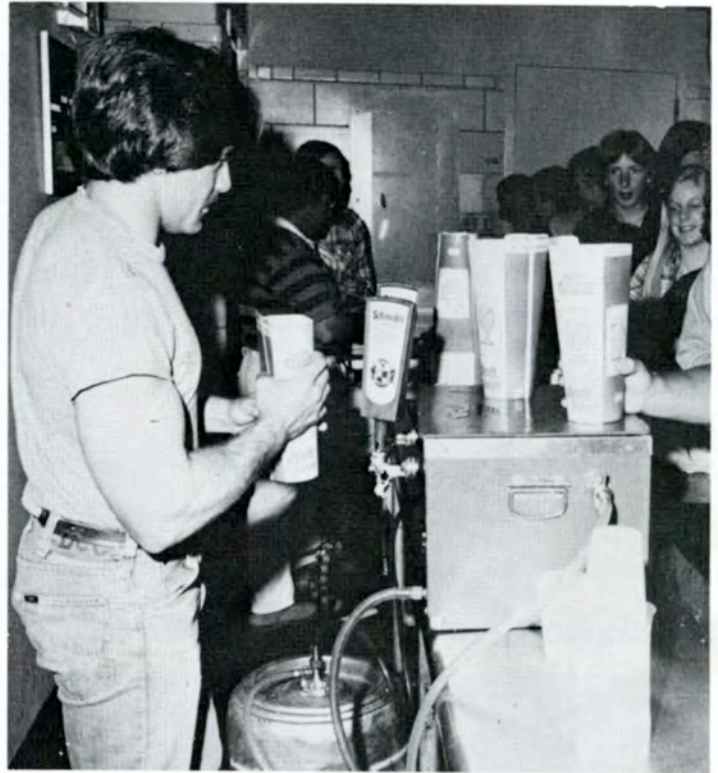

"SOMEWHERE OVER THE RAINBOW"

The Spring Weekend started off with a wild beer blast at the Pub. As usual there was the annual Arts & Crafts show held on Saturday morning. This busy weekend also included a folk dance festival. It was an exciting and fun filled weekend for all.

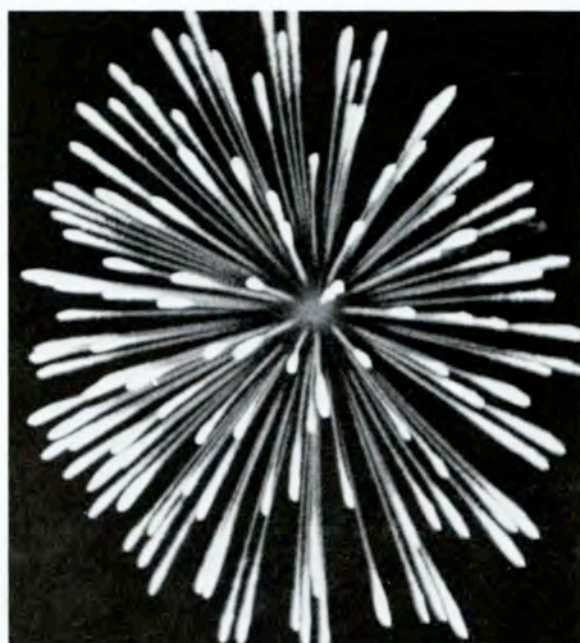

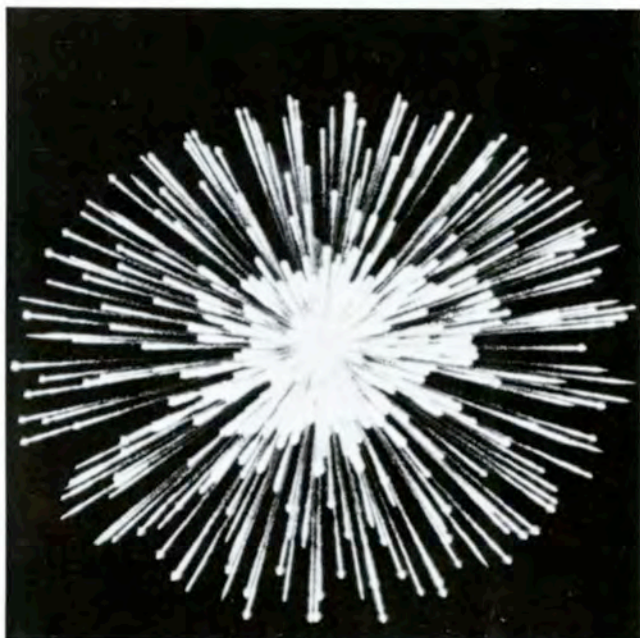

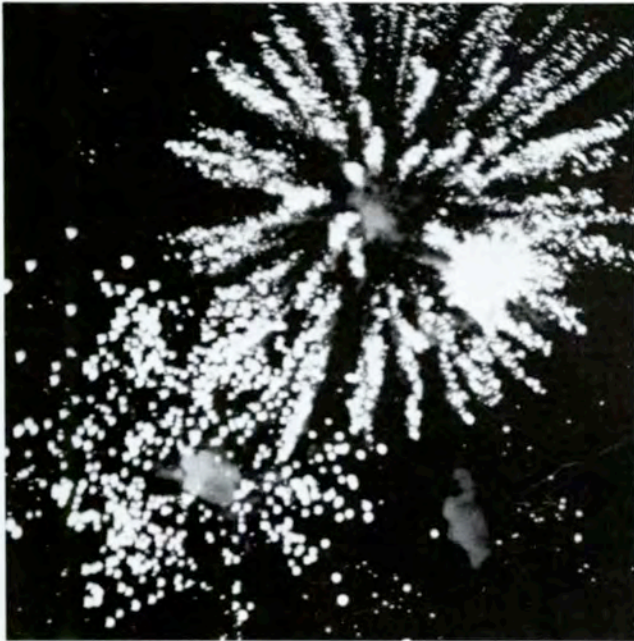

HOMECOMING

This years theme was "I Love New York". The homecoming queen, Fran Phelps, was crowned at a coffee house in the Blue Room.

Friday night meant late hours for those of us who helped put the floats together for Saturday's parade. Somehow it always gets done and this year was no exception. We had firewords to light the sky and beers to fight the cold. How could we miss?

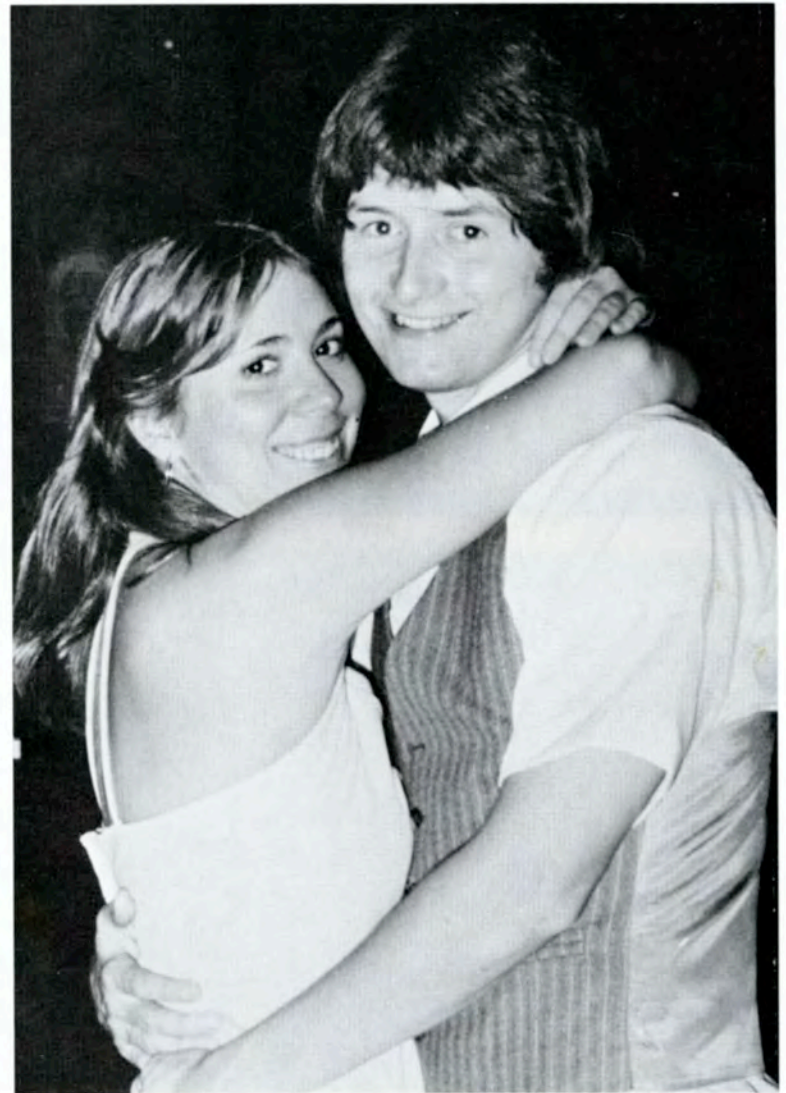

Despite a charged-up Cardinal team, the power of Brockport proved to be too much for us when the time ran out.

Plattsburgh lost on the field but on the sidelines, we had several winners.

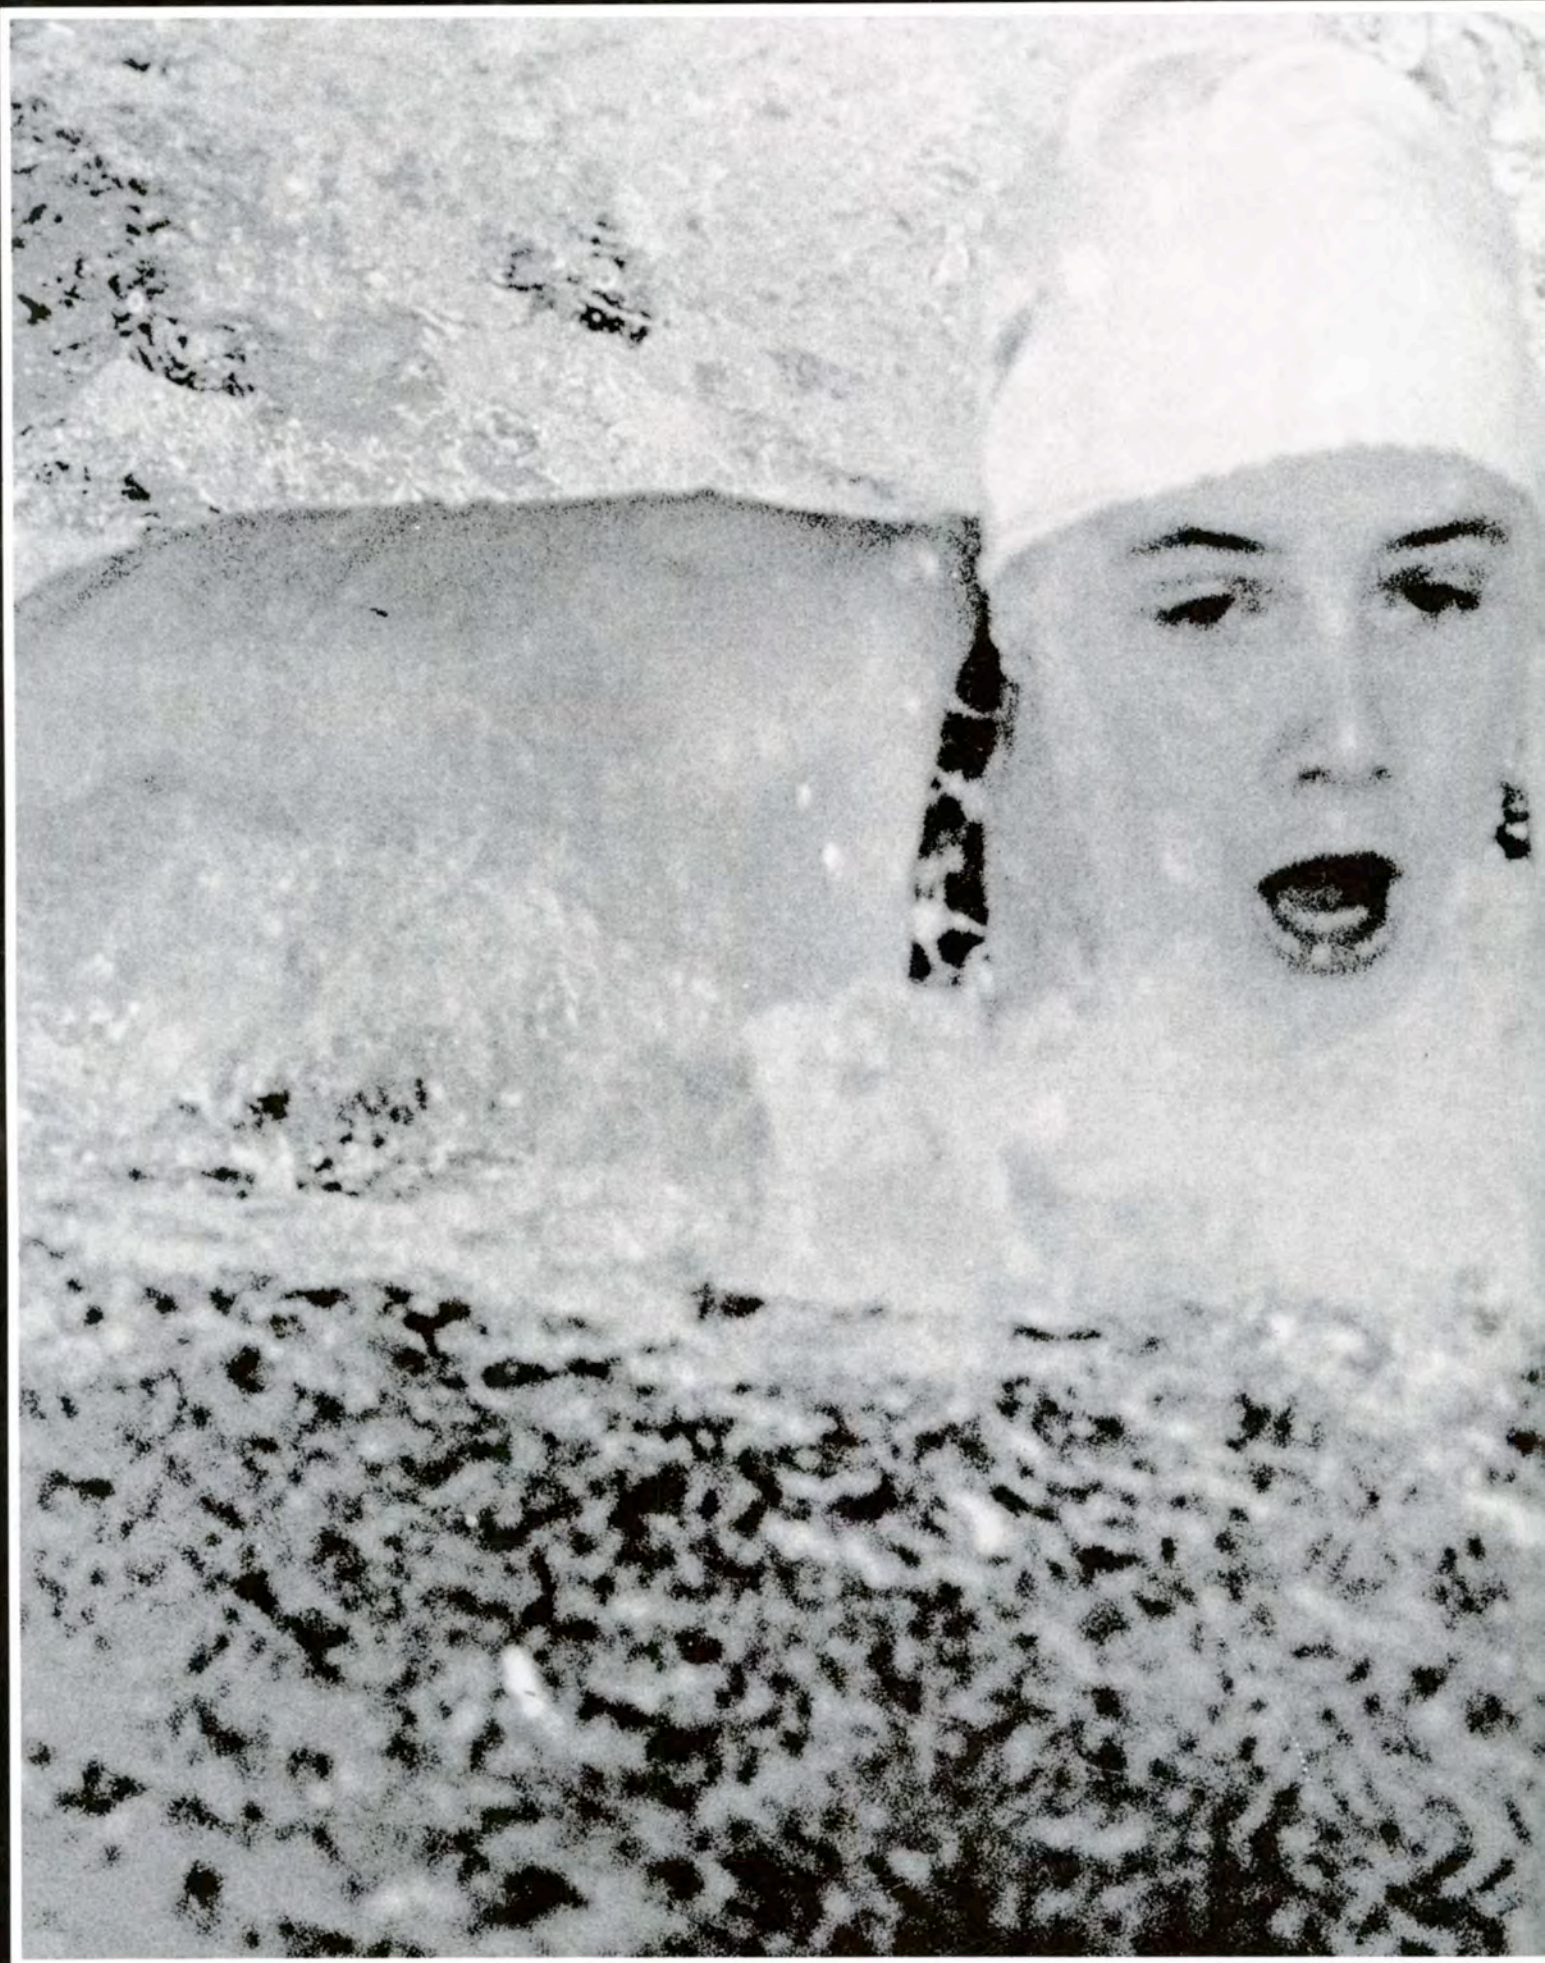

Kent Hall took home their trophy for the best over-all float (right.) In the Greek division, the first place float belonged to Sigma Tau Sigma and Alpha Delta Theta. And keeping up with tradition, Psi Epsilon Chi was awarded the President's cup for the fifth year in a row, as well as the scholastic cup for the academic achievement.

The Plattsburgh State Cardinal Hockey team earned the reputation of the team to beat as they surged on to the ECAC Division II playoffs at the very start of their season. Before the season began, ECAC officials predicted the Cardinals would capture the ECAC Division II West crown and be one of the "final four" in this year's playoffs. The Redbirds lived up to their expectations as they clinched the SUNYAC title for the second year in a row with an impressive 9-0 record. As of this publication, the SUNYAC champs are 21-2 overall and are hopeful in capturing the Division II West championship.

FORENSIC UNION

The Plattsburgh State Forensic Union, 1978 State Champions for the second consecutive year, started this year with a rookie team that has managed to do well in the tournaments they attended: Niagara University, Southern Connecticut State College, Ithaca College, Monmouth College, Penn State, Harvard University, University of Maine, and their home tournament.

Forensics is divided into two categories of competition: debate and individual events. Debate involves a two or four-man team arguing a case on either the positive or negative side, and attempting to do so most logically. Individual events are generally broken down into eight traditional events: prose interpretation, poetry interpretation, informative speaking, persuasive speaking, extemporaneous speaking, impromptu speaking, dramatic duo, and rhetorical criticism.

The Plattsburgh State Forensic Union has long been known for its academic achievements. Plattsburgh team members have a consistently high percentage of students achieving averages of dean's list calibre.

BAPTIST GROUP

CONCERT COMMITTEE

OFFICE OF THE STUDENT ASSOCIATION
State University College of Arts and Science
Plattsburgh, New York 12901
518-561-6020

I'd like to take this opportunity to thank all of the people and organizations whose help was responsible for making this year's concert program the success that it was.

Many thanks go to Bob Johnson and the College Center Print Shop staff, Jerry Diffley and the rest of the Cardinal Yearbook staff, as well as Paul Alt and Francis Barber, and the rest of the gang from Buildings and Grounds who helped out.

What would a concert be without Spotlights? Thanks to you, Mike Boyle and the rest of the S.A. Tech Crew who braved the long hours and the lousy meals and still survived the show. Thanks to Jay McGrath and the rest of the Cardinal Points staff, to Jim Moran and Fred Sears from Marriott who catered all the shows. Thank you, Mrs. "P", Mrs. Rock, Miss Reardon and Lynda Waite for taking all of my phone calls. And thanks to Dave Doty and the student security staff and also to the College Security staff.

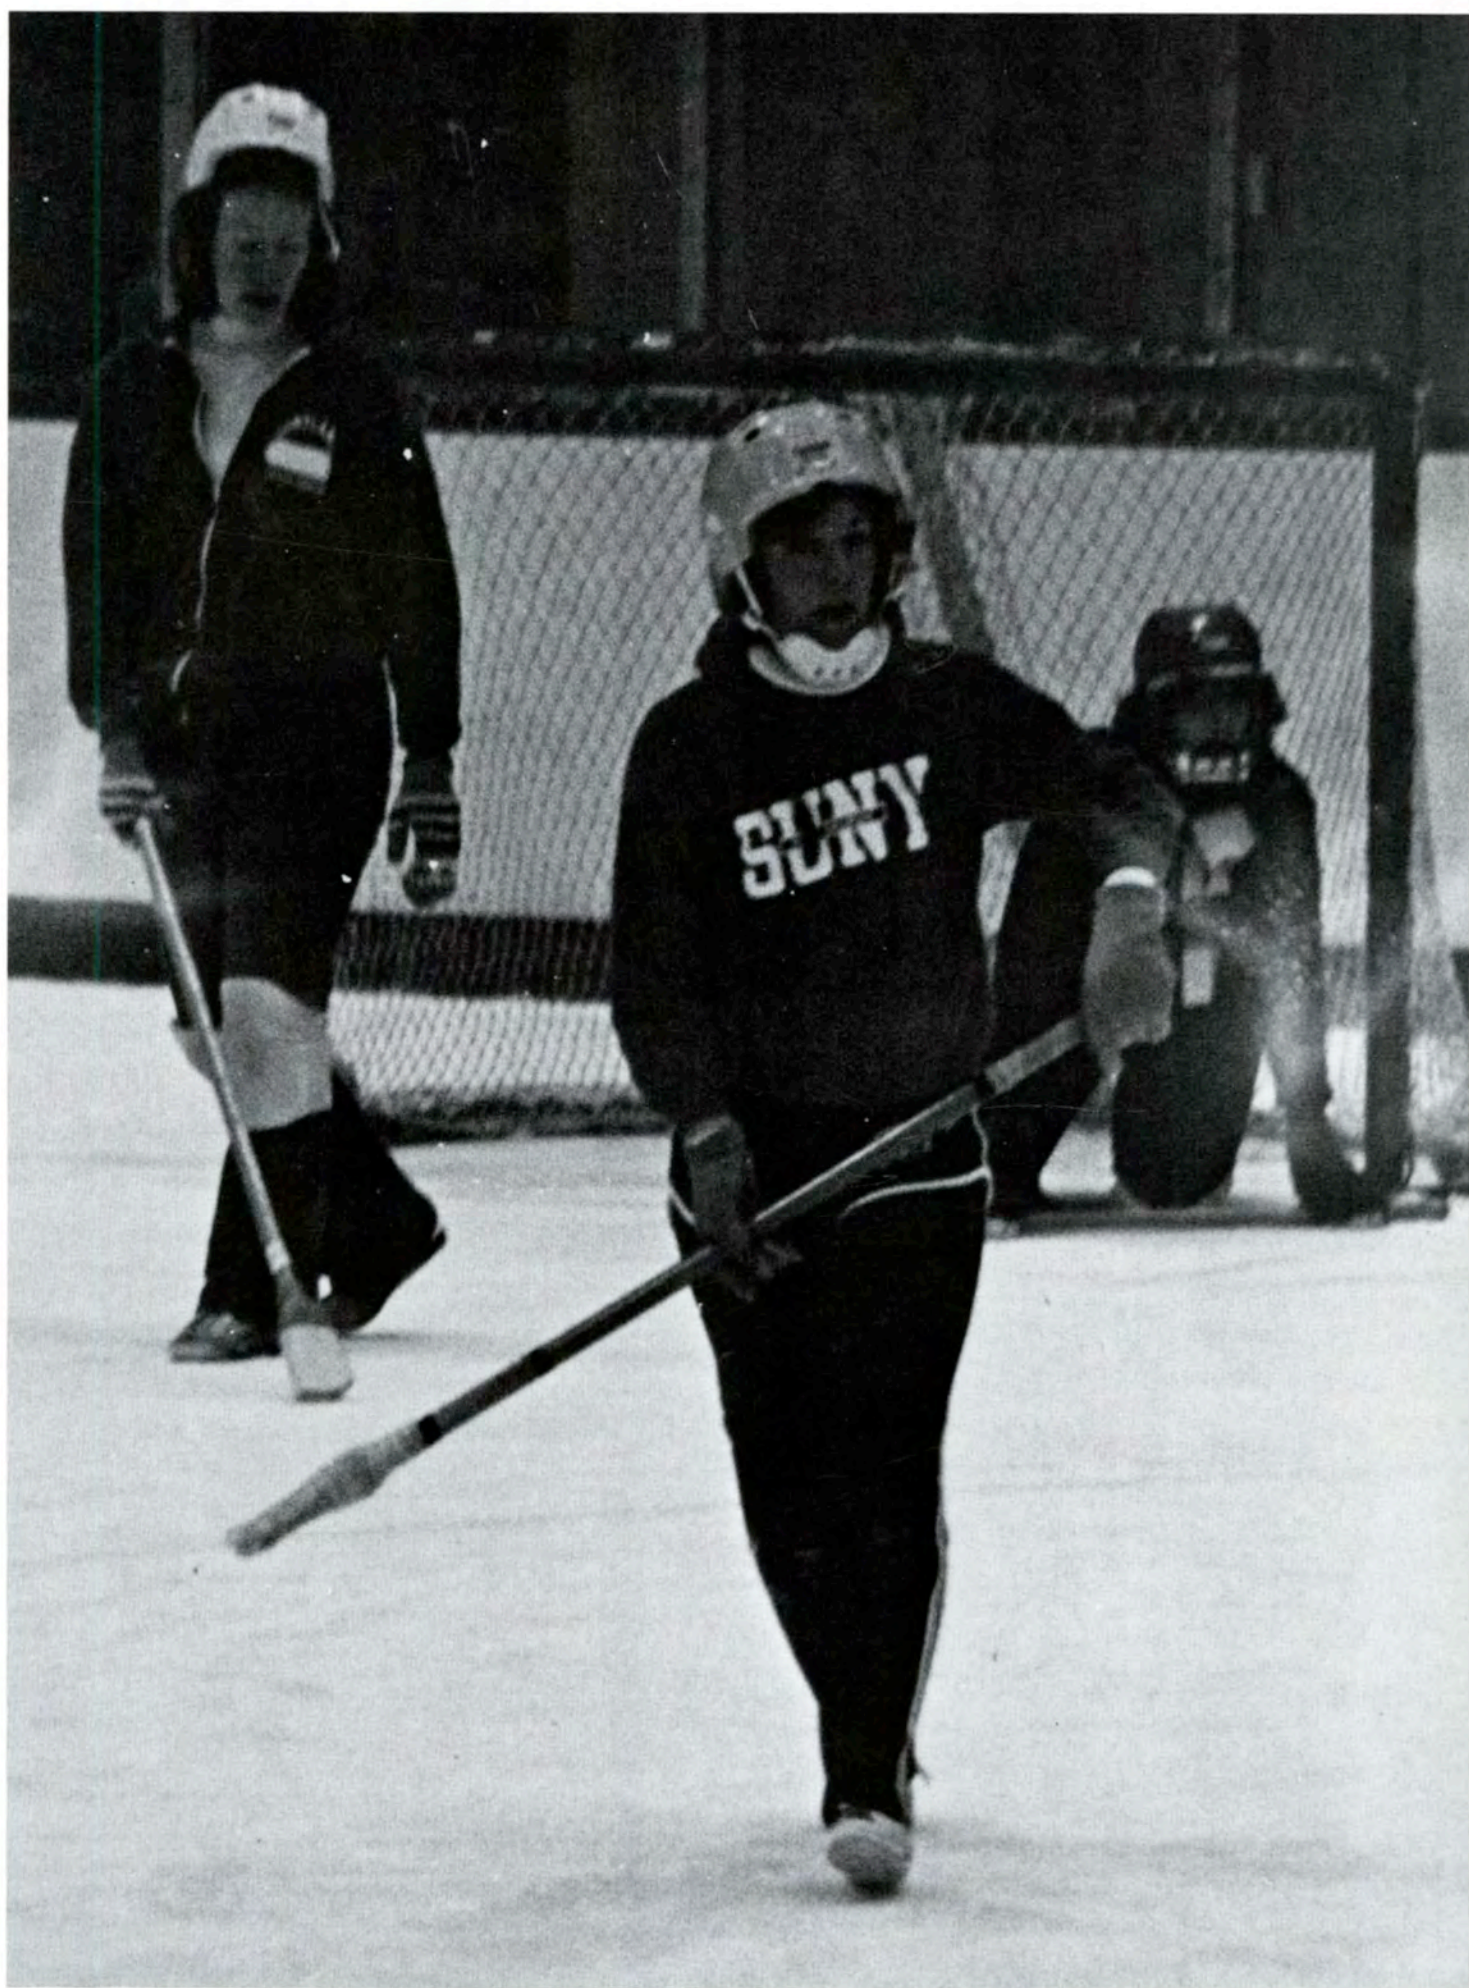

Thank my boss? Sure. Thanks Laura Sadowski for helping out on show days and for proof-reading memos. Speaking of show days, thank you, Kris Youngblood, for selling tickets and for listening to my gripes, and to you, Debbi Suher, for balancing my books. And to my roommates, Norbert, Russ and Mark, thanks for all the advice, criticism, friendship and for the jumper cables that I used to start my car the day of the Bromberg Show!

The Concert Committee members deserve special thanks for the countless hours that they put in under some rather unusual circumstances. Thank you all. The list is too long to mention, you know who you are. Hopefully, you'll find your gorgeous faces somewhere on these pages. I'll surely miss you.

I could never write a letter thanking everyone responsible for this terrific year without including Mark Christiansen. Mark, along with Patty Casper, coordinated the College Center staff who hung so many of our posters and sold so many of our tickets. Through thick and thin, Mark has always been there. Thanks, Mark, you're true friend.

Thanks again, everyone! Enjoy!

Craig Racicot
Chairman, Concert Committee

Greeks

During our brief eleven year existence, the brothers of Psi Epsilon Chi have built an impressive fraternity history of continuous community service.

Psi Ep's monthly blood drives provide CVPH with their largest share of donations each year. Our annual bike-a-thons have raised over \$60,000 for cancer research. These and many more charity programs we sponsor have caused us to be awarded the college's President Cup during each homecoming since 1975, the longest winning streak in Plattsburgh's history.

Our doors are open to the campus for our weekly T.G.I.F. parties as well as the annual Halloween and St. Patrick's day parties we give.

We also encourage any men interested in joining our fraternity to ask us any questions they may have about us.

Alpha Kappa Phi Sorority, more commonly known as Ago, has existed since 1892, when it was a literary organization on campus. In more recent years; Ago has as its aims the establishment of cooperation and a feeling of sisterhood among the members; the contribution of activities and services to the college; and the encouragement of new ideas and interests among the members for the improvement of the organization. These aims are fulfilled and implemented by a variety of activities which take place each semester — such as U.S.O., babysitting, and working with A.C.L.D., just to name a few.

The objectives of Sigma Tau Sigma fraternity are to bring together those male students of diversified backgrounds, having corresponding interests and common ambitions to provide a fraternity through which intellectual, social and charitable activities will have a beneficial effect upon the lives of the brothers of the fraternities members, the college and the community. The Sig Tau's house is located at 147 Brinkerhoff Street.

Thalians pride themselves on their sisterhood. Each and every girl holding qualities she contributes freely to her sorority making the successful blend we call Theta Alpha Lambda.

Successful because along with our feelings for sorority, we spread out into areas of community service, college sponsored functions, campus activities and those fraternity get-togethers.

As you pledge, you learn and experience the true meaning of cooperation and caring from girls who believe in and care so much about you that we're helping you discover the sorority we've come to love.

Rising above the term "CLICK", Thalians is a close-knit group, but like any group, can only grow through expansion, and with this, Thalians open their hearts to the kind of girls that have been keeping Thalians on top.

Follow Those Thalians!!

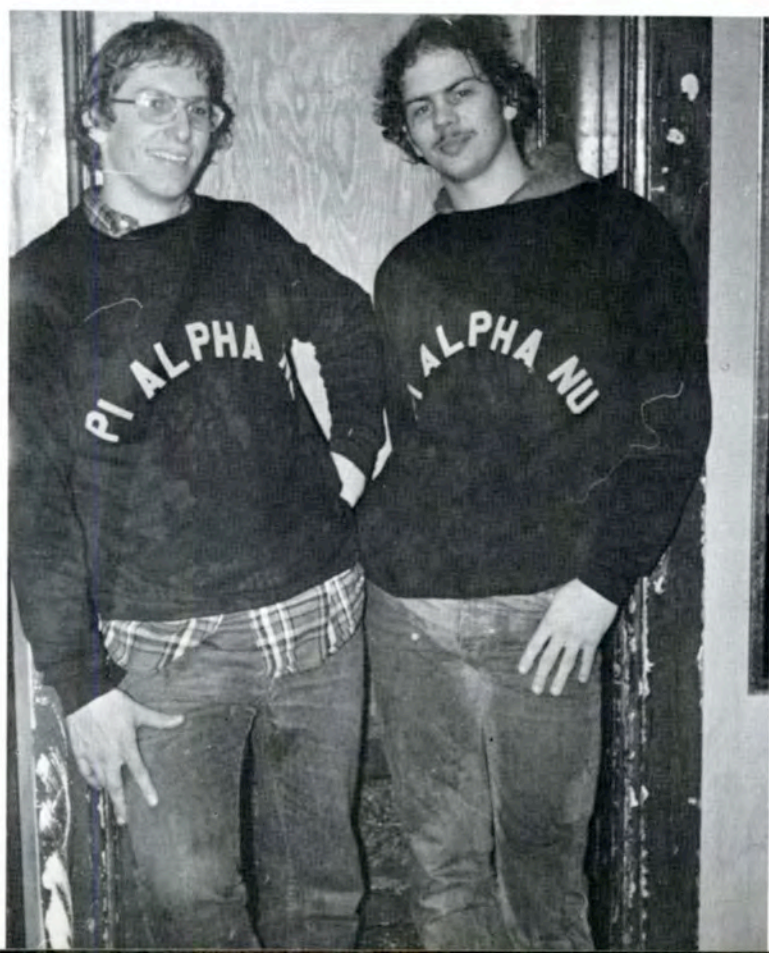

Theta Kappa Beta, with its high ideals, has strived to become the number one fraternity on the Plattsburgh campus. The Beta's excel in sports, community activities, and scholastically they are one of the tops. Started in 1959, Beta is one of the oldest organizations on this campus.

Alpha Delta Theta sorority was formed on the Plattsburgh campus in 1925. We have continually been active in community and academic projects as well as participating in many social affairs. All the girls are individuals striving for a common goal of unity among its members. Working together, enjoying good times, and everlasting friendships . . .

That's Alpha Delta Theta.

ΦΚΧ

PHI KAPPA CHI

The Clionian Sorority was established 103 years ago as a literary society. As our sisterhood developed, it based its goals on community service and loyalty to the group. The sorority has actively lived up to these goals today by working on many weekends, rushes and other sorority functions. The Clionians are known to many as daisies, the girls in yellow, and the Phi Kappa Chi's. We are proud of our history and we strive to maintain the loyalty and love that the sorority was established upon.

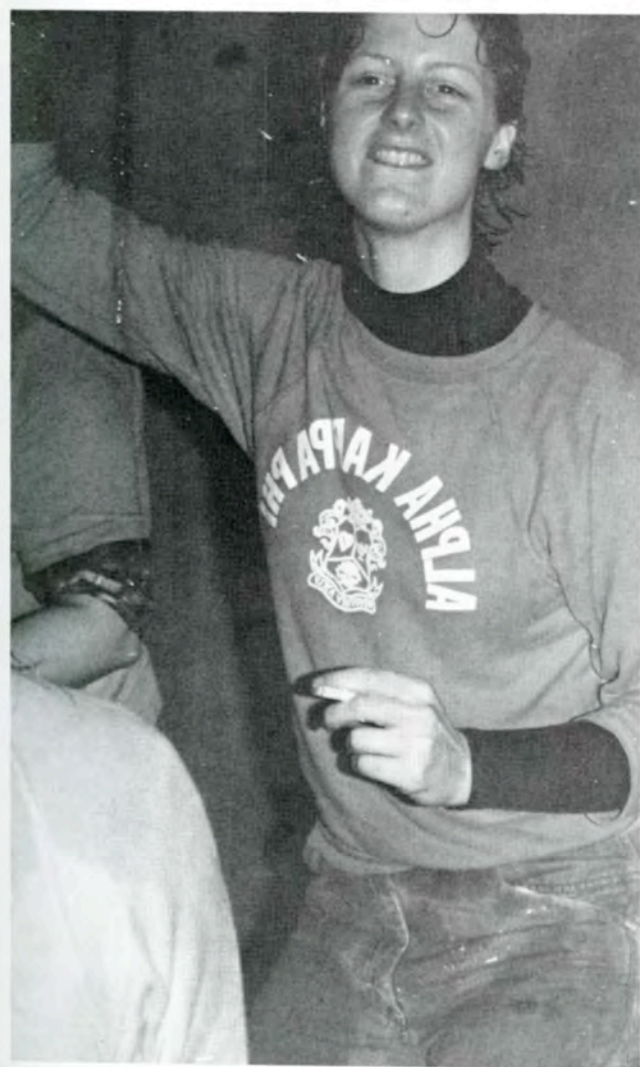

Every semester, some more of Plattsburgh's students discover the feeling of becoming a Greek. Our infamous hell night at the Deleri celebrates the end of pledging and the beginning of brotherhood and sisterhood.

This is the life for those of us who want more out of college than just an academic education. Community Service, a closer kind of friendship from people you can count on, and a strong sense of belonging are common to all the Greeks.

Check us out and find out which fraternity or sorority is the one of your liking. It just may be worth your while to become one of us.

CARDINAL YEARBOOK

(518) 564-2193 • EDITOR: JERRY DIFFLEY
ASSISTANT EDITOR: DEBRA ANDERSEN
COLLEGE CENTER

February 15, 1979

As I write this letter other people from the staff are in another room finishing up this year's edition of the CARDINAL YEARBOOK. Boy am I glad it's almost over. I really don't think people have any idea of how much time it takes to put together a book like this one. I thought it was going to be a lot easier than it was. At times I thought that I was going to make Plattsburgh history by being the first Editor not to put a book out, but as you can see we made it. I say we because a book like this could never have been produced by one person. It took every drop of energy from every member of the staff and for that I thank every one of them.

A special thanks to Gary Gold of Delmar for his patience and understanding when we didn't meet deadlines and we didn't meet them very often. I would also like to thank Delma Studio's of New York for their fine pictures and cooperation throughout the year.

I would especially like to thank my Assistant Editor, Debbie Anderson, for all her hard work. Also for putting up with all the headaches and putting up with me besides.

To Joe, my photography editor, and his staff for sticking with it when things didn't go right, and they never seemed to. It took a lot of time and effort, but you did it and I thank you for it.

To Kathy Cahallen for all her work this semester.

To my roommate, Mike, for putting up with the phone calls and messages at six and seven in the morning. Also, thanks for your "listening and understanding ear". You helped me keep my sanity throughout this whole ordeal. Thanks too for working in the darkroom when we were in a bind. It really helped.

Most of all, thanks to the people who make Plattsburgh State what it is. Without you this book would not have been possible.

Good luck in the future.

Sincerely,

Jerry Diffley, Editor-in-chief

"Yesterday's over my shoulder
And I can't keep looking backward too long
'Cause there's too much to see
Waiting in front of me
And I know I just can't go by."

—Jimmy Buffet
